DELIVEZ

Partners · Test accounts

Logins for every type of user

Development build · Bangalore · prepared 21 Oct 2026. Every number below was checked against the dev database and logs in with the role shown.

Development only. These numbers work only on the local dev servers. There are no passwords — login is by one-time code (OTP). Do not reuse these numbers in production, and keep this sheet within the team.

How to log in

Partners app (restaurants, pharmacies, labs)
`http://localhost:5173/login`

Admin console (Delivez team)
`http://localhost:5174/login`

1. Enter the 10-digit mobile number from the tables below (no +91 needed).
2. In development the 6-digit code is **shown on the login screen** (yellow box). Type or paste it. In production it arrives by SMS.
3. Each number can request at most **5 codes per hour**. If you hit the limit, restart the dev servers (`pnpm dev`) — the counter resets.
4. Staff with access to more than one outlet pick the outlet after login; owners can switch outlets from the header.

1 · Admin console — Delivez team

City-scoped admins only see stores in their city. Only a Founder can grant Founder or Head of Ops.

MOBILE	NAME	ROLE	SCOPE	WHAT THEY CAN DO
99999 00001	Founder	FOUNDER	All cities	Everything: approve, suspend, reinstate, team, cities, legal, audit log
99999 00005	Head of Operations	HEAD_OF_OPS	All cities	Everything except granting senior roles; manage team, cities, approvals, audit
99999 00006	Karnataka Regional Head	REGIONAL_HEAD	Bengaluru	Approve, suspend, reinstate, pause/resume stores, notices, cities & PIN codes
99999 00002	Bengaluru City Ops	CITY_OPS	Bengaluru	Approve stores, pause/resume, send notices, turn partner staff logins on/off
99999 00003	Compliance	COMPLIANCE	All cities	Verify/reject documents, approve and suspend stores, audit log
99999 00004	Finance	FINANCE	All cities	Read-only today (payouts arrive in a later step)

99999 00007	Legal	**LEGAL**	All cities	Publish legal documents (T&C, SLA), audit log
99999 00008	Partner Support	**SUPPORT**	All cities	Read access; turn partner staff logins on/off
99999 00009	Auditor	**AUDITOR**	All cities	Read-only, including the audit log

2 · Partners app — Restaurant

Meghana Foods – Indiranagar · Restaurant · **LIVE** · menu with veg/non-veg items, orders, staff

MOBILE	NAME	ROLE	WHAT THEY SEE
90000 00001	Meghana Owner	**OWNER**	Everything: dashboard, orders, menu, staff, settings, bank, documents, legal
90000 00002	Priya	**MANAGER**	Dashboard, orders, menu, staff, settings (no bank tab; only the owner signs agreements)
90000 00003	Ramesh	**KITCHEN_LEAD**	Orders (accept, reject, prepare, ready, delay), menu, settings
90000 00004	Anil	**COUNTER_STAFF**	Orders (ready, handover to rider, customer pickup, new counter orders), menu
90000 00005	Kavitha	**ACCOUNTANT**	Dashboard and settings, including **Bank & payouts** (no orders or menu)

3 · Partners app — Pharmacy

Demo Pharmacy – Koramangala · Pharmacy · **LIVE** · registered pharmacist, 5 products incl. one Schedule H (prescription) item, stock tracking

MOBILE	NAME	ROLE	WHAT THEY SEE
90000 00011	Rahul Shetty	**OWNER**	Everything, including inventory and stock history
90000 00012	Sunita	**PHARMACIST**	Orders, products, inventory, settings

4 · Partners app — Diagnostics lab

Demo Diagnostics – HSR Layout · NABL lab · **LIVE** · pathologist Dr Meera Iyer, 5 tests (HbA1c needs a prescription), home collection + walk-in

MOBILE	NAME	ROLE	WHAT THEY SEE
90000 00021	Dr Anita Rao	**OWNER**	Everything: bookings, prescription approval, signed reports, tests, staff, settings

90000 00022	Deepa	**COUNTER_STAFF**	Bookings desk: confirm, assign collector, collect sample, new walk-in bookings (reports and prescriptions need owner/manager)

5 · Other users

MOBILE	WHO	HOW IT IS USED
Any new number	New partner signing up	Log in to the Partners app with an unused 10-digit number → "Add your outlet" starts onboarding (restaurant, pharmacy, lab, grocery…). Applications then appear in the admin console for review.
99999 88888	Ravi (test rider)	No rider app or admin orders screen yet. Developers "play the rider" through the admin API: **`POST /v1/admin/tasks/:id/assign`** and **`/status`** (arrived, picked up, delivered).
70000 001xx	Simulated customers	No customer app login (orders come from the Delivez Local app later). Use **Test order** / **Test booking** in the Partners app to generate them.

Handy test actions

- **Orders:** log in as 90000 00001 → Orders → **Test order**. A new order rings for 3 minutes; accept, mark ready, then hand over with the rider's code. In dev the code comes from the admin API **`GET /v1/admin/orders/:id`** (no admin orders screen yet).
- **Lab bookings:** 90000 00021 → Bookings → **Test booking**. The patient's 4-digit sample code comes from **`GET /v1/admin/lab-bookings/:id`** in dev.
- **Push alerts:** click the bell → **Turn on**, allow notifications, then **Send a test** on the Notifications page.
- **Approvals:** sign up a new number, complete onboarding, then review it as 99999 00003 (Compliance) and approve as 99999 00001.
